

Nordic+

WEBINAR

Nordic + is an open collaboration platform in the field of intelligent transport systems (ITS), initiated by the ITS organizations of Sweden, Finland and Estonia.

“Smart Cities - Smart Mobility”

The substantial need for changes in Global transport systems, as well as in the mobility behavior of people and businesses, is an extreme challenge for cities and a huge chance for companies.

Nordic+ invites all the interested parties to discuss and create a model towards sustainable mobility in the cities of tomorrow.
